WORK EXPERIENCE

Contractual Client

March 2025 – December 2025

React Developer

Remote

- Contracted directly with a senior staff developer to build, maintain and optimize core audition flows for a large-scale casting platform used by talents, agencies, and casting directors.
- Owned the development of the end-to-end **Talent Self-Tape and Check-In** features, building all new UI components and integrating them with the GraphQL API.
 - **Stack:** React 19, TypeScript, Zustand (for global state), React-Query (for API data), and Material-UI 7 (MUI).
- Performance optimization for the **Host/MFE (Micro-Frontend)** architecture by identifying and resolving critical re-rendering bottlenecks. Significantly improved UI responsiveness by refactoring state management and applying advanced React composition patterns.

Aicon Construction Supplies and Trading

December 2024 – Feb. 2025

Full-stack Developer Intern

Cainta, Rizal

- Solely developed a full-stack internal CRM using React, TypeScript, Node.js, and PostgreSQL to centralize data and streamline company operations
- Built modules for client/lead management, sales tracking, and document handling, which consolidated multiple workflows into a single platform
- Designed the relational database schema in PostgreSQL and built a secure RESTful API with Node.js to power all application functionalities, ensuring high data integrity and efficient information retrieval for report generation

Freelance Developer

Jan 2023 – March 2025

Remote

- Developed custom websites for students, integrating popular APIs such as Google Maps and social media APIs, utilizing the MERN stack for efficient and responsive solutions.
- Built a web scraping bot using Selenium to automate NFT purchases upon countdown expiration
- Developed a capstone portfolio website for a multi-media student, showcasing their final projects.

EDUCATION

ICCT Colleges

December 2025

B.S. in Computer Science
